Definitely it is a good chance to develop myself in my major. I really enjoy the time at UOEH. I should show my appreciation to this program.

Dr. Yan Ding
Department of Pathology and Cell Biology

Hebei Medical University

This program can promote the connection of Asia's medical universities, and it has provided a very good opportunity for us to complete our PhD. We enjoyed ourselves in Japan.

Dr. Mehrnoosh Movahed
Department of Ergonomics

Islamic Azad University,
Tehran Branch School of Medicine

This scholarship gave me not only the chance to continue my study at the unique university of occupational health in Japan but also I had so many different life experiences and become familiar to the kind and hospitable Japanese people. Now I know more about Japanese culture and I can speak Japanese a little.

Ms. Mingfen Song
