

# The 13<sup>th</sup> International Symposium of Society for the *Aldh2* Knockout Mouse Research

**President:** Tsunehiro Oyama

Department of Environmental Health, UOEH

**Date:** November 29, 2010

**Venue:** University of Occupational and Environmental Health,  
Kitakyushu, Japan

**Poster session: 13:00 ~ 13:30**

**Chair: Masayuki Tanaka**

Establishment of environmental quality standards for hazardous air pollutants.

Toshihiro Kawamoto<sup>1</sup>, Tsunehiro Oyama<sup>1</sup>, Masayuki Tanaka<sup>1</sup>, Hsu-Sheng Yu<sup>1</sup>, Eiji Shibata<sup>2</sup>, Ayumi Anan<sup>3</sup>, David J. Askew<sup>2</sup>, Toyohi Isse<sup>4</sup>

<sup>1</sup>Department of Environmental Health, UOEH

<sup>2</sup>Maternal and Child Environmental Health Center, UOEH

<sup>3</sup>Department of Nursing of Human Broad Development, UOEH

<sup>4</sup>Section of Postgraduate Guidance, UOEH

**Break: 13:30 ~ 14:00**

**General session: 14:00 ~ 15:00**

**Chair: Tsunehiro Oyama**

The effect of ethanol drinking on *Aldh2* polymorphisms and *N*<sup>2</sup>-ethylidene-dG adduct formation in mice: Implication for alcohol-related carcinogenicity of oral and esophagus.

Hsu-Sheng Yu<sup>1</sup>, Tsunehiro Oyama<sup>1</sup>, Toyohi Isse<sup>2</sup>, Masayuki Tanaka<sup>1</sup>, Toshihiro Kawamoto<sup>1</sup>

<sup>1</sup>Department of Environmental Health, UOEH

<sup>2</sup>Section of Postgraduate Guidance, UOEH

**Break: 15:00 ~ 16:00**

**Special session: 16:00 ~ 17:00**

**Chair: Toyohi Isse**

Aldehyde dehydrogenases: from metabolic disease to cancer stem cells.

Prof. Vasilis Vasiliou

Department of Pharmaceutical Sciences, University of Colorado Denver
