

<2024 [20th News] International Health Special Program at Daegu Catholic University in Korea> (Posted on September 20, 2024)

<International Health Special Program at Daegu Catholic University in Korea>

Based on an exchange agreement signed in 2007 between the Department of Environmental Management, School of Health Sciences, UOEH and the Department of Occupational Health, Daegu Catholic University, Korea, 4 faculty members and 11 students from the School of Health Sciences, UOEH visited Daegu Catholic University for four days from August 19 to 22 under the international health special program and English for occupational health. With the purpose of promoting academic exchange between faculty members and students, both universities provided research presentations and participated in tours of campus facilities and factories. Participants exchanged information on the duties of occupational health professionals in both countries, and active interaction was promoted through activities such as playing traditional Korean board games together. Next year, the delegation from Daegu Catholic University is scheduled to visit UOEH.
