

<2025 [7th News]> National University of Singapore and UOEH held a residents meeting (Posted on March 31, 2025)

On Monday, March 24, UOEH welcomed eight residents and two faculty members from School of Public Health, National University of Singapore. Together with the residents of the Institute of Industrial Ecological Sciences, they participated in a meeting to present their research findings as well as to share the situations in Occupational Health in both countries. This meeting was the 3rd meeting since 2022 organized based on the MOU between two institutions. The participants actively engaged in the meeting as well as the Q&A session which contributed to make the meeting fruitful.
