<Delegates from Department of Disease Control, Ministry of Public Health, Thailand visited UOEH >

On Friday, February 2, the delegation headed by Dr. Thongchai Keeratihuttayakorn, Director General of Department of Disease Control (DDC), Ministry of Public Health, Thailand visited UOEH. The delegates paid a courtesy visit to President Ueta and had a meeting with our faculty members connecting UOEH and the DDC, Thailand online to discuss possible collaborations and activities as WHO Collaborating Centres, then a campus tour followed. We hope this visit becomes a starting point of our collaborations in the near future.
