<The 5th UI-NRH-UOEH Joint Interesting Occupational Medicine Regular Forum>

On October 19, the 5th UI-NRH-UOEH Joint Interesting Occupational Medicine Regular Forum was held by 3 institutions, namely, University of Indonesia (UI), Nopparat Rajathanee Hospital (NRH), Thailand and UOEH, Japan. The purpose of this forum is to understand legal systems and practices on occupational medicine in the three countries.

The forum consists of presentations by occupational medicine residents from the host country and discussions among occupational medicine residents from the 3 institutions. The 5th session was hosted by NRH, and occupational medicine residents from NRH gave a presentation on the topic of "Brittle Asthma" followed by a lively discussion among the residents. The forum was again attended by approximately 60 participants from the 3 institutions, and it turned out to be a very fruitful event for the participants.
