

<2023[20th News] UOEH International Symposium 2023 was held> (Posted on November 1, 2023)

On October 13 and 14, the UOEH International Symposium 2023 was held at Ramazzini Hall of the UOEH campus and online. The international symposium was held after 12 years since the last time held in 2011. The symposium's theme was "Digital Occupational Health" and total of 9 symposiasts from 5 countries gave lectures and presentations during these two days.

There were 30 posters presented for the poster session on October 14, and three posters were chosen for the Excellent Poster Award.

Participants of the symposium at onsite counted 133 in two days. Among them, 42 participants joined from 6 overseas countries. Total of 66 participants from 8 overseas countries joined the symposium online in two days.

UOEH International Symposium 2024 will be held November 8-9, 2024 under the theme of "AI in Human Factors and Ergonomics: how should we apply the disruptive technologies to occupational health?".
