

<2025 [28th]> Participation in the online teleconference seminar 2025: International Environmental and Occupational Health Program (Posted on Dec. 23, 2025)

The “International Environmental and Occupational Health Program 2025” was held via teleconference every Tuesday from September 2 to December 16. This 15-session program (excluding September 23) connected National Taiwan University, Khon Kaen University (Thailand), National University of Singapore, Brunei Darussalam University and UOEH. The lectures provided a valuable opportunity for participants to learn about various research in the field of Occupational and Environmental Health from lecturers with different backgrounds. Each lecture concluded with a lively Q&A period, fostering active discussion among the participants.

UOEH provided 4 lectures by our faculty members as listed below, and our 3 graduate students also took part in the student presentation session which provided the students valuable experience and the connections with fellow students.

<p><Sept. 9> “Work, Sleep, and Health” Prof. Akinori Nakata Dept. of Preventive Medicine and Community Health</p>	 A photograph of Prof. Akinori Nakata, a man with dark hair wearing a light blue striped shirt, sitting at a desk. He is gesturing with his hands while speaking. On the desk are a laptop, a white thermos, and some papers. A map is visible on the wall behind him.
