

<2026 [9th News]> Delegation of the Faculty of Public Health, Mahidol University visited UOEH
(Posted on March 18, 2026)

On Monday, March 9, a delegation of five members led by the Dean Sarawut Thepanondh of the Faculty of Public Health, Mahidol University, Thailand, visited UOEH. After an overview of the Faculty of Public Health, Mahidol University and an introduction to UOEH, the delegation toured the anechoic chamber, the artificial climate chamber, and the Center for Stress-related Disease Control and Prevention. Following that, we held a meeting on future collaborative programs based on our MOU, and the delegation expressed their interest to further advance the exchange activities that have taken place thus far. We both agreed to continue discussions moving forward.
