

<2026 [1st News]> Annual exchange program with Ulsan University Hospital (Posted on March 16, 2026)

From January 13 to 15, 2026, four residents from the Institute of Industrial Ecological Sciences headed by Prof. Akira Ogami (Dept. of Work Systems and Health) and Assist. Prof. Naoki Okubo (Dept. of Environmental Epidemiology) visited Ulsan University Hospital in Korea for an annual exchange program. During the visit, the group toured the Occupational Health Center at Ulsan University Hospital, as well as Hyundai Motor Company and the shipyard of Hyundai Heavy Industries. They also engaged in fruitful discussions regarding the current state of occupational health in both countries and shared their respective research activities.
