

<2026 [15th News]> International Center hosted Lunch Meeting with international PhD students (Posted on Jun. 17, 2026)

On Thursday, June 4, the International Center held a networking lunch meeting, bringing together international PhD students and the staff members of the International Center. A total of 24 participants enjoyed their conversations while introducing their home countries and research fields to one another. Although the time was limited, conversations flowed in a warm and friendly atmosphere, making the event a meaningful opportunity. We will continue to provide such opportunities and remain committed to supporting international students.
